

Dear Sailors and competitors,

As you already are informed, since few weeks, we are increasing the services for Dragon Sailors in South of France and North Italie, with more possibilities in the area of Cannes:

- A new boat yard, (Ex- Riva and Rodriguez yard) complementary to the actual outside storage,
- An inside storage, with all the facilities to keep, prepare and repair your Dragons, Hulls, Sails and Masts, Boat tenders and chase cars or trucks.

Our company, **Spring Lady**, in charge from end of September 2012 of this responsibility, is totally involved in the sailing Boat industry, and specially the racing boat service and preparation since many years.

As the former President (2004 – 2007) of Yacht Club de Cannes, in charge during this period of all the sailings events (including the “Régates Royales” and “l’Hiver des Dragons”) I’m particularly attentive to the attempt from the Dragonnists Fleet, and as a Competitor during many years on different type of sailing boats (Monotype and Multihulls), I know how is important a good preparation in time, to feel right on a starting line.

With my professional Team we want to continue to satisfy you, and to keep the Dragon’s Regattas a pleasure.

Hope to see you soon in Cannes and to keep your confidence.

Best regards and waiting for your orders

Denis Charvoz
