North Sail models 2014

Mainsail (A-12+) *New for 2014!*

£1395 + VAT

2013 World Champion

The A-12+ Mainsail is a development for the new stiff Petticrows mast. This new mast is 10% stiffer than the standard Petticrows mast and the Borrensen mast. This cross cut sail is manufactured from a slightly firmer fabric, Dacron 270B, to give a more stable easy to trim sail and much improved longevity. It's easy to trim characteristics make a fast sail in all conditions.

Mainsail standard features:

- Class insignia
- Sail numbers
- Epoxy battens
- Vision window
- Spreader window
- Leech tell tales
- Leech line
- Long roll bag
- Sail measurement
- Class royalty label

Mainsail (A-7+)

£1395 + VAT

The A-7+ Mainsail is a further development of our famous A-7 Mainsail. This cross cut sail is now manufactured from a slightly firmer fabric, Dacron 270B, than the A7 giving a more stable sail and much improved longevity. It's easy to trim characteristics make a fast sail in all conditions and it is used to great effect by club sailors right up to world champions.

Mainsail standard features:

- Class insignia
- Sail numbers
- Epoxy battens
- Vision window
- Leech telltales
- Spreader window
- Leech tell tales
- Leech line
- Long roll bag
- Sail measurement
- Class royalty label

Genoa (MJ-8)

2013 World Champion
Wind Range 6-18 knots

£1115+VAT

This is our all purpose genoa developed in 2009 and a very popular choice for a single headsail programme. This cross cut sail also has rockered panels for better load distribution in the head, clew and tack and is made from Dacron 5.46 Polykote. It is designed for use in wind speeds of 6-18 knots.

Genoa standard features:

- Zip luff
- Vision window
- Spreader chafe patch
- Flutter patches
- Leech tell tales
- Trim tell tales
- Leech line
- Long roll bag
- Sail measurement
- Class royalty label

Genoa (MJ-8H)

Wind Range 14-30 knots

£1115+VAT

This genoa is our medium-heavy headsail, designed to the same flying shape as the MJ-8. The cross cut MJ-8H is made from fabric (Dacron 6.5 Polykote) which stretches less and so keeps it's round entry and very straight aft section, ideal wind range is 14-30 knots.

Genoa standard features:

- Zip luff
- Vision window
- Spreader chafe patch
- Flutter patches
- Leech tell tales
- Trim tell tales
- Leech line
- Long roll bag
- Sail measurement
- Class royalty label

Spinnaker (CD-5) *New for 2014!*

2013 World Champion

£1185+VAT

This CD-5 is new for 2014, with the addition of radial clew sections which help the sail go through the wind range better with less distortion, the sail retains its powerful top section. This makes the bi-radial CD-5 Spinnaker a very fast all-round spinnaker. The sail is manufactured from a combination of Dynakote 75 and Superkote 75.

Spinnaker standard features:

- Sail numbers
- Sail bag
- Sail measurement
- Class royalty label
- Stock colours
